3:00 - 5:00pm > Judging

5:00 - 5:30pm > Presentations

Goff Hall, Woodstock
District Community Complex

Please join us with your team!

YOU ARE INVITED TO MENTOR A TEAM

The OIYRC is a community-based partnership that encourages high school age youth to consider careers in engineering, technology, and skilled trades.

GOALS:

To expose youth to innovative technology and open up their interests and abilities in the sector.

To give youth hands-on experience in design, construction and team problem solving by building and programming a robot for an industry modeled task.

To involve and educate the community about the importance of technology in Oxford County and surrounding area.

Please complete the contact information below, and you will be connected with a team. Thank-you.

Company _____

Why Become a Mentor

- Give valuable feedback on projects
- Show youth insight into new technology
- Reinforce what is happening in the industry
- Assist in the development of the future and workforce

What Mentors enjoy about their involvement

- Watching the group work through their design
- Students solving a wide variety of challenges
- Innovation displayed by the team
